Application No. 130

Attention: Wireline Competition Bureau

The Verizon Telephone Companies (Verizon) hereby apply for Special Permission for a waiver of Section 61.58 and 61.59 of the Commission's Rules.

On October 8, 2004, Verizon filed Transmittal No. 501, a portion of which submitted regulations to remove TCP/IP Data Aggregation Service from Tariff FCC Nos. 11, 14 and 16. TCP/IP Data Aggregation Service, as offered in Tariffs F.C.C. Nos. 11, 14 and 16, has two offerings of CyberPOPSM which are modem based data aggregation services. Several months prior to issuing Transmittal No. 501, Verizon removed one of its other TCP/IP Aggregations Services and subsequently assumed that it had no customers and no demand for the remaining TCP/IP Data Aggregation Services. As a result, Verizon issued Transmittal No. 501 to remove the CyberPOP offerings.

Verizon has since realized that it does have at least one CyberPOP customer who subscribes to CyberPOP services under Tariff F.C.C. Nos. 11, 14 and 16. Therefore, Verizon plans to withdraw the portion of Transmittal No. 501 which removes the CyberPOP offerings and to reinstate the regulations for CyberPOP that are currently in effect.

A waiver of Section 61.58 is requested to allow the proposed revisions to become effective on October 23, 2004, which is less than statutory notice.

A waiver of Section 61.59 is requested to allow changes to material that is not yet in effect.

This application and associated attachments are being filed electronically today via the Federal Communications Commission's Electronic Tariff Filing System (ETFS).

Payment in the amount of \$720.00 has been electronically transmitted to the Mellon Bank in Pittsburgh, Pennsylvania, in accordance with the fee program procedures. The Form 159 is being transmitted electronically via ETFS.

In accordance with the requirements of Section 61.21(a)(3) of the Commission's Rules, the FCC Registration Number (FRN) for Verizon is 0003-7085-00. Verizon is filing this application on behalf of issuing carriers with the following FRNs:
